Daniel Haug 973.664.2297

March 2022

Dear Morris Hills Regional District School Community,

We are reaching out to you to provide an update regarding mask protocol for our schools. As a reminder, beginning March 7, 2022, masks will no longer be required and they will become optional for all staff, students, and visitors.

In addition, the federal government has now taken action that will align bus protocol with the mask requirement for New Jersey schools. As a result, beginning March 7, 2022, masks will be optional for all students utilizing district transportation to and from school, or to and from athletic or extracurricular events.

As previously stated, we recognize that there are multiple perspectives regarding masking. Therefore, we ask our school community to once again show its solidarity and strength in respecting each other's perspectives, in supporting each other's emotional well-being, and in believing in each other's choices.

Thank you for your continued flexibility and support of our schools.

Sincerely,

Morris Hills Regional District Administrative Team
